Projects

Expert Squad – Portfolio Website

[Live Site](#) | [GitHub Repository](#)

A high-performance agency landing page featuring a top-notch UI. Developed with React.js and Framer Motion, it showcases complex case studies and services through fluid animations and a clean code architecture.

Key Features:

- **Fluid Animations:** Used Framer Motion for high-end user interactions and smooth transitions.
- **Modern Architecture:** Built a responsive showcase using clean, modular code for maximum performance.

BD Commerce – A Complete Ecommerce Solution

[Live Site](#) | [GitHub Repository](#)

A multi-currency e-commerce solution bridging online and offline sales. Features an advanced UI for quick orders alongside an enterprise-grade admin panel for POS, stock, and global supplier management.

Key Features:

- **Global Commerce:** Dynamic currency and country management for international business scalability.
- **Unified POS:** Integrated Point of Sale system to sync offline transactions with online inventory.
- **Inventory Logic:** Advanced stock and supplier management modules for precise supply chain control.
- **High-Conversion UI:** Optimized customer panel featuring "Quick Order" and modern, responsive design.

BD Commerce – POS Version

[Live Site](#) | [GitHub Repository](#)

A robust POS and e-commerce management system designed to streamline offline order tracking, supplier logistics, and real-time sales analytics for improved business operational efficiency.

Key Features:

- **Supplier & Stock Logic:** Integrated complex supplier models and automated stock purchase tracking.
- **Offline Management:** Built a seamless system for handling offline orders and syncing sales history.
- **Analytics Dashboard:** Visualized real-time sales reports and performance metrics for business insights.
